

traviz

traviz - Statistic Platform

Based on the tour operators booking systems, especially the WBS-Blank system, our web-based Tour Operator Statistic Platform TOP analyses all sales data just-in-time. Complete import of data from the WBS-Blank Tour Operator system such as reservations, bookings, flight- and basic data are imported via a web-based interface into the statistic platform TOP.

Tour operator's management and staff have worldwide access to all business critical sales and flight data. All current and historical data are available and comprehensive data comparison such as year to year and year to date statistics can be made. Decision making will be much easier.

Tour Operator Statistic Platform Process

Through the well arranged summary of all sales data a superior Business Cockpit is created, which allows you to access all relevant information just-in-time and react immediately to changing market conditions. You will have the perfect tool for information, control and planning of you sales.

Your benefits are:

- current and historical sales information
- increase in reaction time on changing market conditions
- simplifying agency sales steering
- improving sales optimising and planning
- boosting flight capacity utilisation
- worldwide access to all information
- state-of-art technologies
- cost cuttings

Corporate Profile

Lamberth Travel Solutions is a service provider for the international air travel industry.
